

H.K.K.P.L. DHANANJAYA

SOFTWARE ENGINEER

✉ hkkpldhananjaya@gmail.com

☎ +94 740707321

PROFILE

Driven by a strong passion for software development, I am a dedicated Full-Stack Web Developer with proven experience in developing and successfully deploying reliable web applications. Eager to contribute to a dynamic software engineering team, collaborate on impactful projects, and continuously adapt to new technologies to deliver high-quality solutions.

EDUCATION

Bachelor of Computer Science

08/2021 – 12/2024

Eastern University of Sri Lanka

Full-Stack Web Development (MERN Stack)

10 Weeks

Skyrek Academy

TECHNOLOGIES

Programming Languages:

JavaScript, TypeScript, PHP, Python, Java, C++

Web & UI:

Next.js, React.js, Node.js, Express.js, Laravel, Flask, Tailwind CSS, HTML/CSS

Cloud & Databases:

AWS, Vercel, Railway, MySQL, MongoDB

Tools & Technologies:

Git, Postman, TestNG, WordPress, XAMPP, TensorFlow

WORK EXPERIENCE

Full-Stack / Software Engineer | Aztra Pvt Ltd

Feb 2026 – Present

- **Responsibilities:** Build and maintain scalable cross-platform desktop applications and web applications, manage cloud infrastructure, and optimize data architectures.
- **Technologies Used:** Next.js, TypeScript, Dart, Flutter, MERN Stack, AWS, MySQL, MongoDB, GitHub

Software Engineering Intern | Exclusive Web Arts Pvt Ltd

Feb 2025 – Jan 2026

- **Responsibilities:** Developed scalable web applications, designed efficient database models, built responsive user interfaces, and managed deployment workflows.
- **Technologies Used:** Laravel (PHP), Blade, React.js, Node.js, Express.js, Tailwind CSS, MySQL, MongoDB, Postman, FileZilla, XAMPP, GitHub

PROJECTS

[MERN E-commerce Website](#) | [Frontend](#) | [Backend](#)

- Developed a full-stack E-commerce platform to enable online product browsing, shopping, and secure transactions.
- **Technologies:** React.js, Node.js & Express.js, MongoDB, Tailwind CSS, Git

Invoice Management System | [GitHub Repository](#)

- Developed a system to manage invoices, customer details, and payments, streamlining billing and record-keeping.
- **Technologies:** Laravel, PHP, Blade, Tailwind CSS, MySQL, Git

Snake Identification Web Application | [GitHub Repository](#)

- Developed a web application to identify snake species from images, enhancing public awareness and safety regarding venomous snakes in Sri Lanka.
- **Technologies:** React.js, Flask, TensorFlow (machine learning), HTML, CSS, JavaScript, Git.

YouTube Frontend Clone | [GitHub Repository](#)

- Developed a responsive YouTube-like frontend to emulate the core UI components of the platform, enhancing front-end development skills.
- **Technologies:** HTML, CSS, JavaScript, Git.

Computer Shop Website | [GitHub Repository](#)

- Developed a user-friendly website for showcasing computer products and facilitating customer interactions, simulating an online electronics store experience.
- **Technologies:** HTML, CSS, JavaScript, Git.
